

-30°C Biomedical Freezer

Scope of Application:

Suitable for blood banks, hospitals, disease control centers, research institutes, electronic, chemical and other industries. Used for the cryopreservation of plasma, biologics and other products, and cold tests for components and materials.

Innovative Design

- Green and environmentally friendly
- High-efficiency and energy-saving compressor and system
- Superior temperature uniformity
- Low sound level

Qingdao Haier Biomedical Co.,Ltd.

No.280 Feng Yuan Road, High-tech Zone, Qingdao, 266109, P.R. China Tel: +86-0532-88935593

Product Advantages

High-efficiency and energy-saving compressor and system

The industrial grade energy-saving compressor and optimized cooling system reduces the power consumption by more than 55% to achieve -30 °C compared with older models.

Low sound level

Several design optimisations have reduced the sound level by more than 5dB and has eliminated high-pitch noise.

Green and environmental friendly

- Hydrocarbon refrigerant compressor and HC refrigerant is a green refrigeration technology with a very low global warming
- Built with isopentane foam polyurethane insulation, the series complies with European RoHS Directive.

Superior temperature uniformity

The evaporator-shelf design produces a faster cooling process and a more uniform temperature distribution. The temperature uniformity at characteristic points is ±4 °C.

Product Features

DW-30L508

Microprocessor control system

- Microprocessor temperature controller,LCD/LED temperature display, display accuracy at 0.1°C. Adjustable temperature setting from -10°C to -30°C.
- Multiple alarm functions including high temperature alarm, low temperature alarm, sensor error alarm and power failure alarm.
- Sound and flash alarm
- Alarm lasts for more than 24 hours after power failure

Access port

An access port is standard to allow for external test probes.

Excellent temperature-retaining ability

High-efficiency insulation and a double seal design delivers improved temperature performance, energy efficiency, and system reliability.

Lock

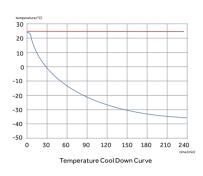

The lock latch design provides an extra level of security.

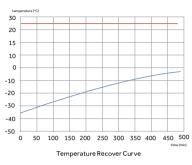

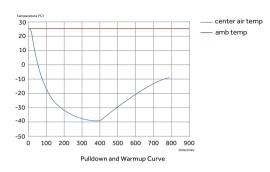

Recorder

Optional chart temperature recorder available
